## Gloves

We highly recommend you hire or bring your own gloves, we do have a big range if you need to purchase any.

## Armour

Not only is it common sense but it will give you confidence and self assurance we stock a selection of armour to purchase if you don't have your own, also all bikes have water cages we recommend at least 500ml of water for every hour on the trails.

Stranded in the middle of a ride with a flat tyre is a negative on the fun side, a small investment will pay off big time if you need to fix a leak, much of our terrain is sharp granite and because its been a dry couple of seasons bindy or cat heads are around so punctures are not uncommon.
